## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the drawer sliding to an open position at a front of the seat of claim 23; the exit door of claim 24; the drawer sliding to an open position towards the door of claim 24; and the drawer sliding to an open position behind the front seat of claim 25 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 and 21-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said sidewall opening" in line 14. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitation "said sidewall" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "an air brake system" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 23 recites the limitations "said sidewall" in line 1 and "an open position" in line 2. There is insufficient antecedent basis for these limitations in the claim.

Claim 24 recites the limitations "said sidewall" in line 1 and "the vehicle door" in line 3. There is insufficient antecedent basis for these limitations in the claim.

Claim 25 recites the limitations "said front opening" and "said sidewall" in line 1. There is insufficient antecedent basis for these limitations in the claim.

***Allowable Subject Matter***

4. Claims 16-18 are allowed.

Art Unit: 3612

5. Claims 1-15 and 21-25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Response to Arguments***

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
